According to the *Land Surveyors Act*, Chapter L-4.1 the “practice of land surveying” means:

- (i) the survey of land to determine or establish boundaries;
- (ii) the survey of land to determine or establish the boundaries of any right or interest in land or in air space;
- (iii) the survey of air space to determine or establish boundaries;
- (iv) the survey of land to determine the location of anything relative to a boundary for the purpose of certifying the location of the thing;
- (v) the survey of lakes, rivers or watercourses to establish or determine their boundaries;
- (vi) the survey by any means, including photogrammetric, electronic or astronomic methods, of land, water or air space for the purpose of preparing maps, plans and documents connected in any way with the establishment or determination of boundaries delineating any right or interest in land, water or air space;

- (vii) cadastral operations and compiling and recording information related to the matters specified in subclauses (i) to (vi);
- (viii) establishing and maintaining a network of geodetic points of any order of precision and establishing photogrammetric controls for the purposes of the work specified in subclauses (i) to (v), including the preparation of maps, plans and documents and the giving of advice with respect to any of the matters specified in this clause;

“practice of surveying” means:

- (i) the determination, establishment or recording by any means of the positions of points, natural features or features made by persons on, over or under the surface of the earth,
- (ii) the determination of the form of the earth,
- (iii) the practice of land surveying, and includes the preparation of maps, plans, systems and documents and the giving of advice with respect to any of the matters referred to in this clause;
