Notwithstanding section 16 of the *Surveys Act*, prior to entering a property an Alberta Land Surveyor and/or their authorized staff should make a reasonable effort to contact the landowner/occupant of any property they need to pass over or through while performing a survey.

If contact with the landowner or occupant is not possible, a calling card should be left behind to inform the landowner/occupant that the Alberta Land Surveyor and/or their authorized staff have pass over or through their property while performing a survey. The calling card should be left at the landowner’s/occupant’s house, mailbox or other suitable location where it may easily be found.

An example of a calling card can be obtained from the Alberta Land Surveyors Association’s office.
